JUSTIN HENRY

FRONTEND ENGINEER | REACT, NEXT.JS & TYPESCRIPT

Clifton, NJ | (201) 471-1253 | justin.henry0024@gmail.com

Portfolio | GitHub: massiahtheruler | LinkedIn: justin-frontend

SUMMARY

Frontend engineer building client websites and independent products with React, Next.js, and TypeScript. Combines visual design, cinematic interaction, and clear navigation to create immersive experiences that remain easy to use. Owns work from requirements through deployment, informed by prior operations leadership and customer-facing experience.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Sass, Redux, Recharts
Integrations & data: REST APIs, Stripe, Clerk, Firebase, Prisma, PostgreSQL, MongoDB
Delivery: Git, GitHub, Vercel, Figma, responsive UI, form validation, accessibility, component systems

PROFESSIONAL EXPERIENCE

Founder & Frontend Engineer | Manifest

March 2025 - Present | Independent practice | New Jersey / Remote

- Own requirements, interface design, frontend implementation, and deployment for client web experiences; translate business-owner feedback into concrete product and design decisions.
- Build reusable components and responsive interactions connecting visual identity with product discovery, configuration, and inquiry.

Litty Co. | Ongoing client engagement through Manifest

Frontend development and digital experience | Remote

- Work directly with ownership across connected brands, balancing shared web foundations with distinct positioning, content, and customer journeys.

Great Wall / Metro Media Walls | Client showroom & configurator

Working web experience; continued refinement | Next.js, React, TypeScript

- Developed a visual showroom intended to help customers explore custom media walls, choose configurations, and move into an informed estimate conversation.
- Connected reusable catalog data, selectable upgrades, pricing calculations, and inquiry flows; added automated checks for estimate totals and configuration rules.

Manifest | Showroom demo

INDEPENDENT PRODUCT DEVELOPMENT

GoCart | Ecommerce platform developed toward launch

Functional prototype | Next.js, React, Redux, Clerk, Prisma, PostgreSQL, Stripe, Recharts

- Developed a potential multi-vendor platform connecting shopping, seller operations, and administration through distinct customer, seller, and admin workflows.
- Implemented protected routes, product and promotion tools, checkout, coupons, and dashboards; connected Stripe payments and signature-verified webhooks to order records.
- Built responsive order-activity charts and account-specific states to make dense commerce workflows easier to navigate.

Product demo | Source code

INDEPENDENT PRODUCT DEVELOPMENT, CONTINUED

Glitter | Social product exploration

Working prototype | Next.js, React, TypeScript, NextAuth, Prisma, MongoDB

- Developed a branded social experience connecting profiles, a feed, messaging, and notifications through consistent visual identity and account-aware interactions.
- Expanded a tutorial foundation with private messaging, conversation views, and unread state, working toward seamless movement between reading, posting, and conversation.

Product demo | Source code

Bodywork Network | Guided service-discovery prototype

Next.js, React, TypeScript, React Hook Form, Zod | Project demo

- Built a guided intake and matching experience intended to make service discovery calmer and more relevant; translated preferences into recommendations using validated forms, reusable matching rules, and dynamic provider content.

ADDITIONAL PROFESSIONAL EXPERIENCE

Operations Manager & Contract Partner | JJ's Pro Service

2022 - 2025 | New Jersey / Remote

- Managed daily operations, client relationships, scheduling, and field coordination across active service contracts.

Sales Consultant | Momentum Solar

2020 - 2023 | New Jersey / Florida

- Supported consultative residential solar sales, guiding customers through their questions and purchase decisions.

Sales Consultant | Solar Xchange

2016 - 2019 | New Jersey / Florida

- Developed customer relationships through residential solar sales and follow-up, drawing on prospecting and objection-handling experience.

Branch Manager | Penske Truck Leasing

2014 - 2016 | Passaic, NJ

- Managed branch operations, including team oversight, customer service, fleet coordination, and account management for a commercial leasing location.

TRAINING & EDUCATION

Frontend Simplified / FES Institute | Practical Frontend Assignments

2025 - 2026 | Training and internship projects

- Implemented authentication, Stripe checkout, premium access, search, saved content, and audio-player behavior in the Summarist subscription application.
- Built API-driven marketplace views, dynamic routing, and loading states for Ultraverse; implemented responsive interfaces and animation within an existing Next.js architecture for Skinstric.

FES Institute | Frontend Development Bootcamp Certificate | 2026
Frontend Simplified | Web Engineering Program | 2025
