

JUSTIN HENRY

Founder & Frontend Engineer · Manifest · React / Next.js / TypeScript

Clifton, NJ · (201) 471-1253 · justin.henry0024@gmail.com · [Portfolio] · [GitHub] · [LinkedIn]

SUMMARY

Frontend engineer and founder of Manifest, a brand identity and digital experience consultancy focused on responsive web applications, interaction systems, and conversion-focused frontend experiences. Translates strategy into polished UI, frontend architecture, performance-minded implementation, and digital systems that make businesses easier to trust and remember. Background in sales, operations, and branding sharpens instincts for user behavior, credibility, and conversion.

PROFESSIONAL FRONTEND EXPERIENCE

Skinstric - Frontend Engineering Assignment - Built production-ready frontend features inside an existing Next.js architecture, converting provided designs into responsive interfaces with GSAP animation and clean implementation patterns. - Delivered a two-week assignment in four days while preserving existing project structure, visual direction, and responsive behavior.	Next.js · GSAP
Summarist - Subscription Product Internship Owned auth, Stripe checkout, responsive UI, audio player behavior, premium gating, saved books, settings, and search inside an existing production-style Next.js codebase.	Live · GitHub
Ultraverse NFT Marketplace - Frontend Internship Implemented React marketplace features in an existing application, including dynamic routing, API-driven item/detail pages, loading states, creator views, and UI consistency across product surfaces.	Live · GitHub

BUSINESS BACKGROUND

Operations, Sales, and Customer-Facing Leadership JJ's Pro Service · Momentum Solar · Solar Xchange · Penske Managed operations, client relationships, sales cycles, scheduling, account support, and service delivery, building practical instincts for trust, user behavior, objections, and conversion-focused UX.	2014 - 2025
---	-------------

INDEPENDENT PRODUCTS

GoCart - Full-Stack E-Commerce Platform Next.js · React · TypeScript · Tailwind CSS · Redux · Prisma · PostgreSQL · Stripe - Built a multi-role marketplace with customer, seller, and admin workflows, role-aware routing, checkout, coupons, dashboards, and account-specific UI states inside one cohesive product. - Structured dense commerce functionality into responsive storefront and dashboard interfaces that stay clear across payment, order, product, and promotion flows.	Live · GitHub
Big Boy Portfolio - Frontend Product System React · Vite · React Router · SCSS · EmailJS · Vitest - Built a routed portfolio product with case studies, service flows, inquiry behavior, reusable content structure, responsive layout, and recruiter/client-facing project storytelling. - Centralized project data and page rendering logic so links, case-study routes, archive ordering, and resume project content can scale from one source of truth.	Live · GitHub
Glitter - Original Social Product Next.js · React · TypeScript · Tailwind CSS · Prisma · MongoDB · NextAuth - Built a branded social platform with dynamic profiles, post creation, messaging concepts, notifications, account-aware UI behavior, and consistent interaction patterns across routes. - Expanded a tutorial foundation into a more original product direction with stronger visual hierarchy, state handling, and social UX systems.	Live · GitHub
Holy Grails React - Frontend Architecture Conversion React · Vite · Redux · CSS - Rebuilt a vanilla JS storefront into a scalable React component architecture with reusable UI patterns, route-aware interactions, and shared cart state managed cleanly across views. - Preserved visual fidelity while improving maintainability, state organization, responsive behavior, and frontend structure.	Live · GitHub
Netflix Clone - Streaming UI & Interaction Systems React · Vite · Firebase Auth · Firestore · TMDB API · SCSS - Recreated a streaming product experience with auth gating, protected routes, cinematic autoplay behavior, content rails, player pages, and responsive interaction states. - Coordinated TMDB data, Firebase auth, timing, masks, hover behavior, and player state to make the interface feel product-like instead of static.	Live · GitHub

EDUCATION

Frontend Simplified · Web Engineering Program · 2025 12-week intensive covering HTML, CSS, JavaScript, React, Node.js, and full-stack fundamentals, including real-world project work, job placement support, and a Frontend Development Bootcamp Certificate. Clifton High School · Clifton, NJ · 2011
--

CERTIFICATIONS

Frontend Development Bootcamp Certificate, FES Institute (2026) - HTML, CSS, JavaScript, React, Next.js, TypeScript, Redux, Node.js - Completed practical frontend internship project
